Experience

MihawkAI | *Founding Engineer* July 2025 – Present

- Part of the founding team deciding what we build next, working across both the AI underneath our products and the experience people see on top.
- Train models that make sense of what cameras see and build agents people can simply talk to, then design the products around them so they feel effortless to use.

National Informatics Centre | *AI Software Intern* Jan 2025 – April 2025

- Built an AI chatbot for vehicle registration support using NLP and real-time analytics.
- Scaled the FastAPI backend and added CAPTCHA protection and interactive visualizations.

Gurugram Metropolitan Development Authority | *Full-Stack Intern* June 2022 – Aug 2022

- Made the internal dashboard responsive and accessible with Bootstrap and JavaScript.
- Worked with the backend team to streamline data workflows and cut manual input.

Projects

AI Powered Analytics Dashboard Chatbot Jan – Apr 2025

- Lets anyone ask a dataset questions in plain English and get back SQL and charts, served by quantized LLMs behind a FastAPI service.
- Reads CSV, Excel and JSON files and streams answers to an interactive dashboard.

Video Motion Amplification and Vibration Analysis (SIH 2023 Winner) Dec 2023

- Measures machine vibration from ordinary video using Eulerian video magnification and frequency analysis, so equipment can be checked for faults without fitting sensors.
- Won the Ministry of Defence problem statement at Smart India Hackathon 2023 (50,000+ ideas from 44,000+ teams).

Certifications

Google Cybersecurity Professional Certificate | *Credential ID: DXRLYIKE4D2T* 2025

IBM Data Analyst Professional Certificate | *Credential ID: 9WRKVKV2DUIH* 2025

IRM Enterprise Risk Management - Level 1 | *Credential ID: IRMIN/L1CIM/2023/00000000000675* 2023

Achievements

Smart India Hackathon | *Winner, Ministry of Defence problem statement* 2023

Indian International Model United Nations | *High Commendation* 2017

Scindia School Model United Nations | *Special Mention* 2016

Education

Mahindra University Oct 2021 – Aug 2025
B.Tech in Computational Mathematics

Technical Skills

Languages: Python, TypeScript, JavaScript, C/C++, Java, SQL
AI/ML Frameworks: PyTorch, TensorFlow, LangChain, OpenCV, CUDA, Triton Inference Server, vLLM
Deep Learning: CNNs, LSTMs, Transformers, Attention Mechanisms, Seq2Seq, Beam Search, CTC Loss
Agentic & LLM Systems: Multi-Agent Pipelines, Quantized LLMs, RAG, Intent Routing, Tool Orchestration
Computer Vision: Real-time Object Detection and Tracking (YOLO), Re-identification, OCR, Optical Flow, Eulerian Video Magnification, FFT Analysis
Backend & Infrastructure: FastAPI, Flask, Node.js, PostgreSQL, Elasticsearch, React, Docker, Git, Linux, AWS

Extracurricular Activities

Mahindra University Student Council | *Finance Representative*
Managed budgeting and financial reporting for student-led initiatives.

Mahindra University Maths Society | *Member*
Helped organise mathematics workshops and competitions on campus.
